The H.O.D,

Department of Management Sciences,

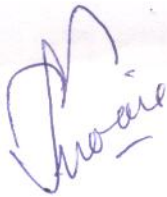

CIIT, Lahore.

Subject: Extension in Research Period.

Sir,

It is stated that I am a research scholar of MS Management, batch fall 2008. I could not complete my research work in the stipulated time period of 3 years due to certain health issues, as I suffered from dengue fever in October 2010 and got an accident in March 2011. The recovery in both the cases was very slow and I had to take bed rest for about a year. I have already submitted first draft of my thesis and undergone the process of pre-defense. It is therefore requested to grant me one year extension so that I may appear in my thesis defense. I shall be obliged for this favor.

Thanking you in anticipation.
